To Whom It May Concern:

I hired Austin Hardi Pros in September 2013 to redo the siding on the front and back of my house. The two sides had previously been done by other companies.

After taking estimates from three other siding companies, I decided on Austin Hardi Pros. They were the most professional of all the companies I contacted. And they were the only company that presented me with a written estimate detailing the exact timeline and scope of the work. There were no "surprises" or additional costs, and all work was completed according to schedule. The crews showed up on time each day and were very courteous and considerate. They took care to protect my belongings and landscaping. They left the worksite spotless when the work was done and even re-hung my décor for me. Supervisor Fran Carter was very responsive and very easy to work with. He was committed to doing everything possible to ensure my satisfaction.

My house looks like a new house now and I am very proud. I highly recommend Austin Hardi Pros.

Sincerely,

Melissa V. De Pagter
