a review where work has  
been completed.

Work Completed Date: April 21, 2014

Last Modified Date: May 03, 2014

Hire Again: Yes

Approximate Cost: \$30,000.00

Description Of Work: Removed asbestos siding, installed insulation, windows and hardi plank.

Member Comments:

Fran and his crew are extremely professional. They began the actual work on our house today although, the process began on February 4. Fran worked patiently to determine the correct product for our 1940's home. He came to the house and spoke with us and the insurance adjuster. He understood the insurance process and helped us to work through the process. As of today we have all the old asbestos siding removed. Tomorrow they will begin to prepare the house for our hardi plank. The crew has kept the yard and work area very neat. We are very excited and looking forward to the finished project. As of today their rating would be A+++.

Update: We are halfway finished with our project. The crew is phenomenal. They clean up every night. Customer service is spectacular.

Update #2: The house looks amazing! Fran, Mario and his crew did a great job with the siding and especially the crown molding. My house looks as it should, a 1940's craftsman, not like a house that has had new siding installed. We are finished with the project except for two windows and the final punch list. The windows were an unforeseen issue that was discovered when the asbestos siding was removed. Fran stopped by today to check on the site as Mario and crew finished yesterday. He taped an area that is waiting for one of the new windows that was a concern to me. Fran, Mario and the crew have been a joy to work with. Very professional, prompt, and friendly. This was a stressful project and I appreciated their willingness to go the extra mile. I would recommend this company without reservation and plan to hire them again for another project. A+++
