To Whom it May Concern:

Doug Rives of Austin Hardi-Pros was hired by Silverton Partners for the purpose of demolition of existing siding, installing energy efficient insulation, windows, Hardi-Plank and paint to the exterior of our main building and cottage. The bid came in promptly and was accepted. The project started on December 2, 2008 with expected completion on January 17, 2009; work was completed promptly and as agreed.

During the project all tasks were successfully accomplished in a timely manner and quality of work was exceptional. Silverton Partners is pleased to say that we had no down time during office hours due to the project and the staff was courteous and professional.

We highly recommend Austin Hardi-Pros.

Sincerely,  
Lydia Hernandez  
Office Manager  
Silverton Foundation
