Categories: Siding
Windows

Services Performed: * More Weight is given to a review where work has been completed.

Work Completed Date: October 12, 2013

Last Modified Date: January 13, 2014

Hire Again: Yes

Approximate Cost: \$20,000.00

Description Of Work: AustinHardi-Pro's replaced our old siding, single pane windows and added rigid foam insulation

Member Comments: Fran did a fantastic job from the beginning starting with recommendations on the type of siding (we went with Color Plus), appropriate double pane windows and a rigid foam insulation to help with cooling bills. Additionally, Fran walked us through the installation process and

Mario and his crew worked diligently and professionally during sometimes very cold mornings to complete the job. There were some challenges with inclement weather which ran up into the holiday season delaying completion until the New Year. This was mostly outside of the control of the contractor and understandable (rains, freezing temps, holiday). Once the weather cleared, the project was rapidly completed and the work site left free of debris and nails. Fran worked to address ALL concerns and punch list items and we were completely satisfied with resulting product and workmanship.

Would highly recommend Austin Hardi-Pro's for your siding replacement.
